SUMMARY PROFESSIONAL

I am an **Informatics Engineering undergraduate at Universitas Tarumanagara** with a **current GPA of 3.96**. Through team projects with **Akademis.ai** and **Rajawali Plastik**, I have helped **develop a computer-based testing platform for lecturers, students, and administrators**, as well as a **business website with real-time chat**. These projects have given me experience building applications around different user needs, while my work at the university has shown me how digital tools support everyday operations. I am seeking a software development internship where I can contribute to practical web applications and further develop my frontend and backend skills.
